Inspection Comments

This report is in response to a complaint stating inhumane euthanasia, Cages dirty, very little water, overcrowded cages, too small of cages, filthy litter boxes, cats with eyes in bad shape and too many animals at the facility. Upon inspection I talked with Shelter manager Jerry Watkins. I inspected the cat rooms and found all enclosures and litter boxes to be clean and all cats had fresh water and food. One cage had 5 kittens in it however these kittens are being treated with medicine prescribed by Dr. Chester the attending vet with the facility. These kittens came in with crusty eyes and to avoid cross contamination these kittens are housed together at this time. There is room in this enclosure for the kittens to move around stand up and lay down. They will be separated once they have been treated and are doing better. They are being kept separate from the other kittens at this time. There was sufficient room for all cats observed today to stand up, lay down and move around. All dog enclosures were clean and all dogs had fresh water and food. All kennels had sufficient room for each dog. Most dog Kennels approx. 10x10. No overcrowding was observed at this time. Euthanasia at this facility is administered by the attending vet Dr. Chester. No violations were observed at this time at this facility. Records will be checked during routine inspection.
